

Live visuals were created by Live Visuals were created by Aysen, Danielle and Samir, for the Our Own Thing event at St. Luke's Church.

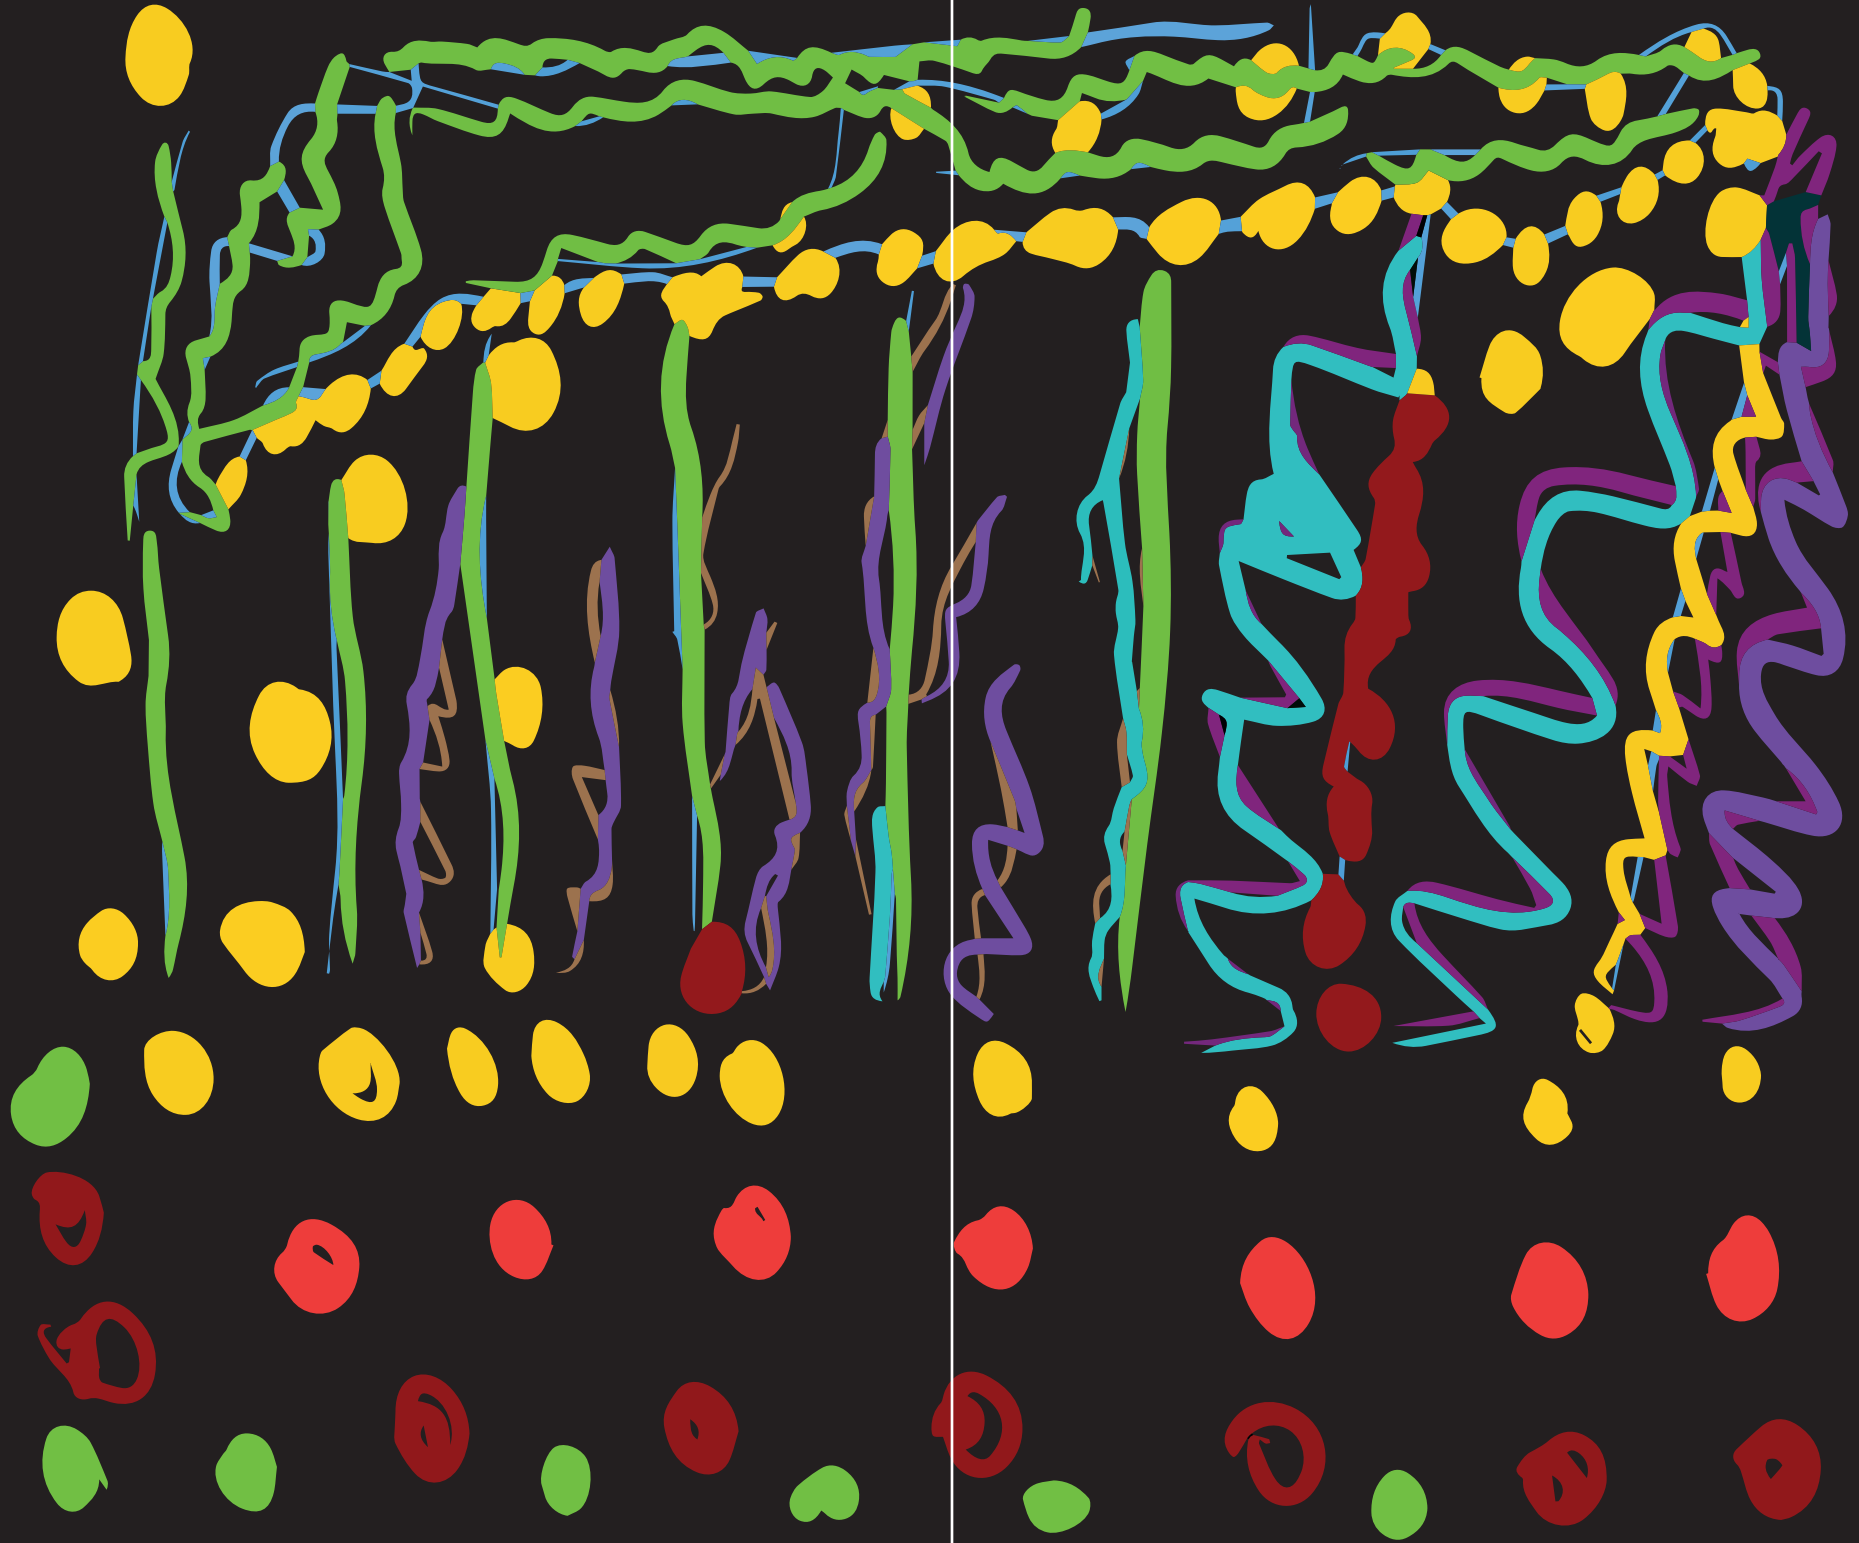

Using an iPad with the app Tagtool it was possible to create live visuals with the performances. For her piece 'Colour Magic' Aysen was drawing live to conduct the five LSO musicians in creating improvised music. Danielle drew animations of the things she sang about in 'We Did Some Gardening'. Samir made drawings of his brother and all the things he likes for his song 'My Brother Zak' as well as doing live animation for Raf's song about London, 'This Town Is My Home'.

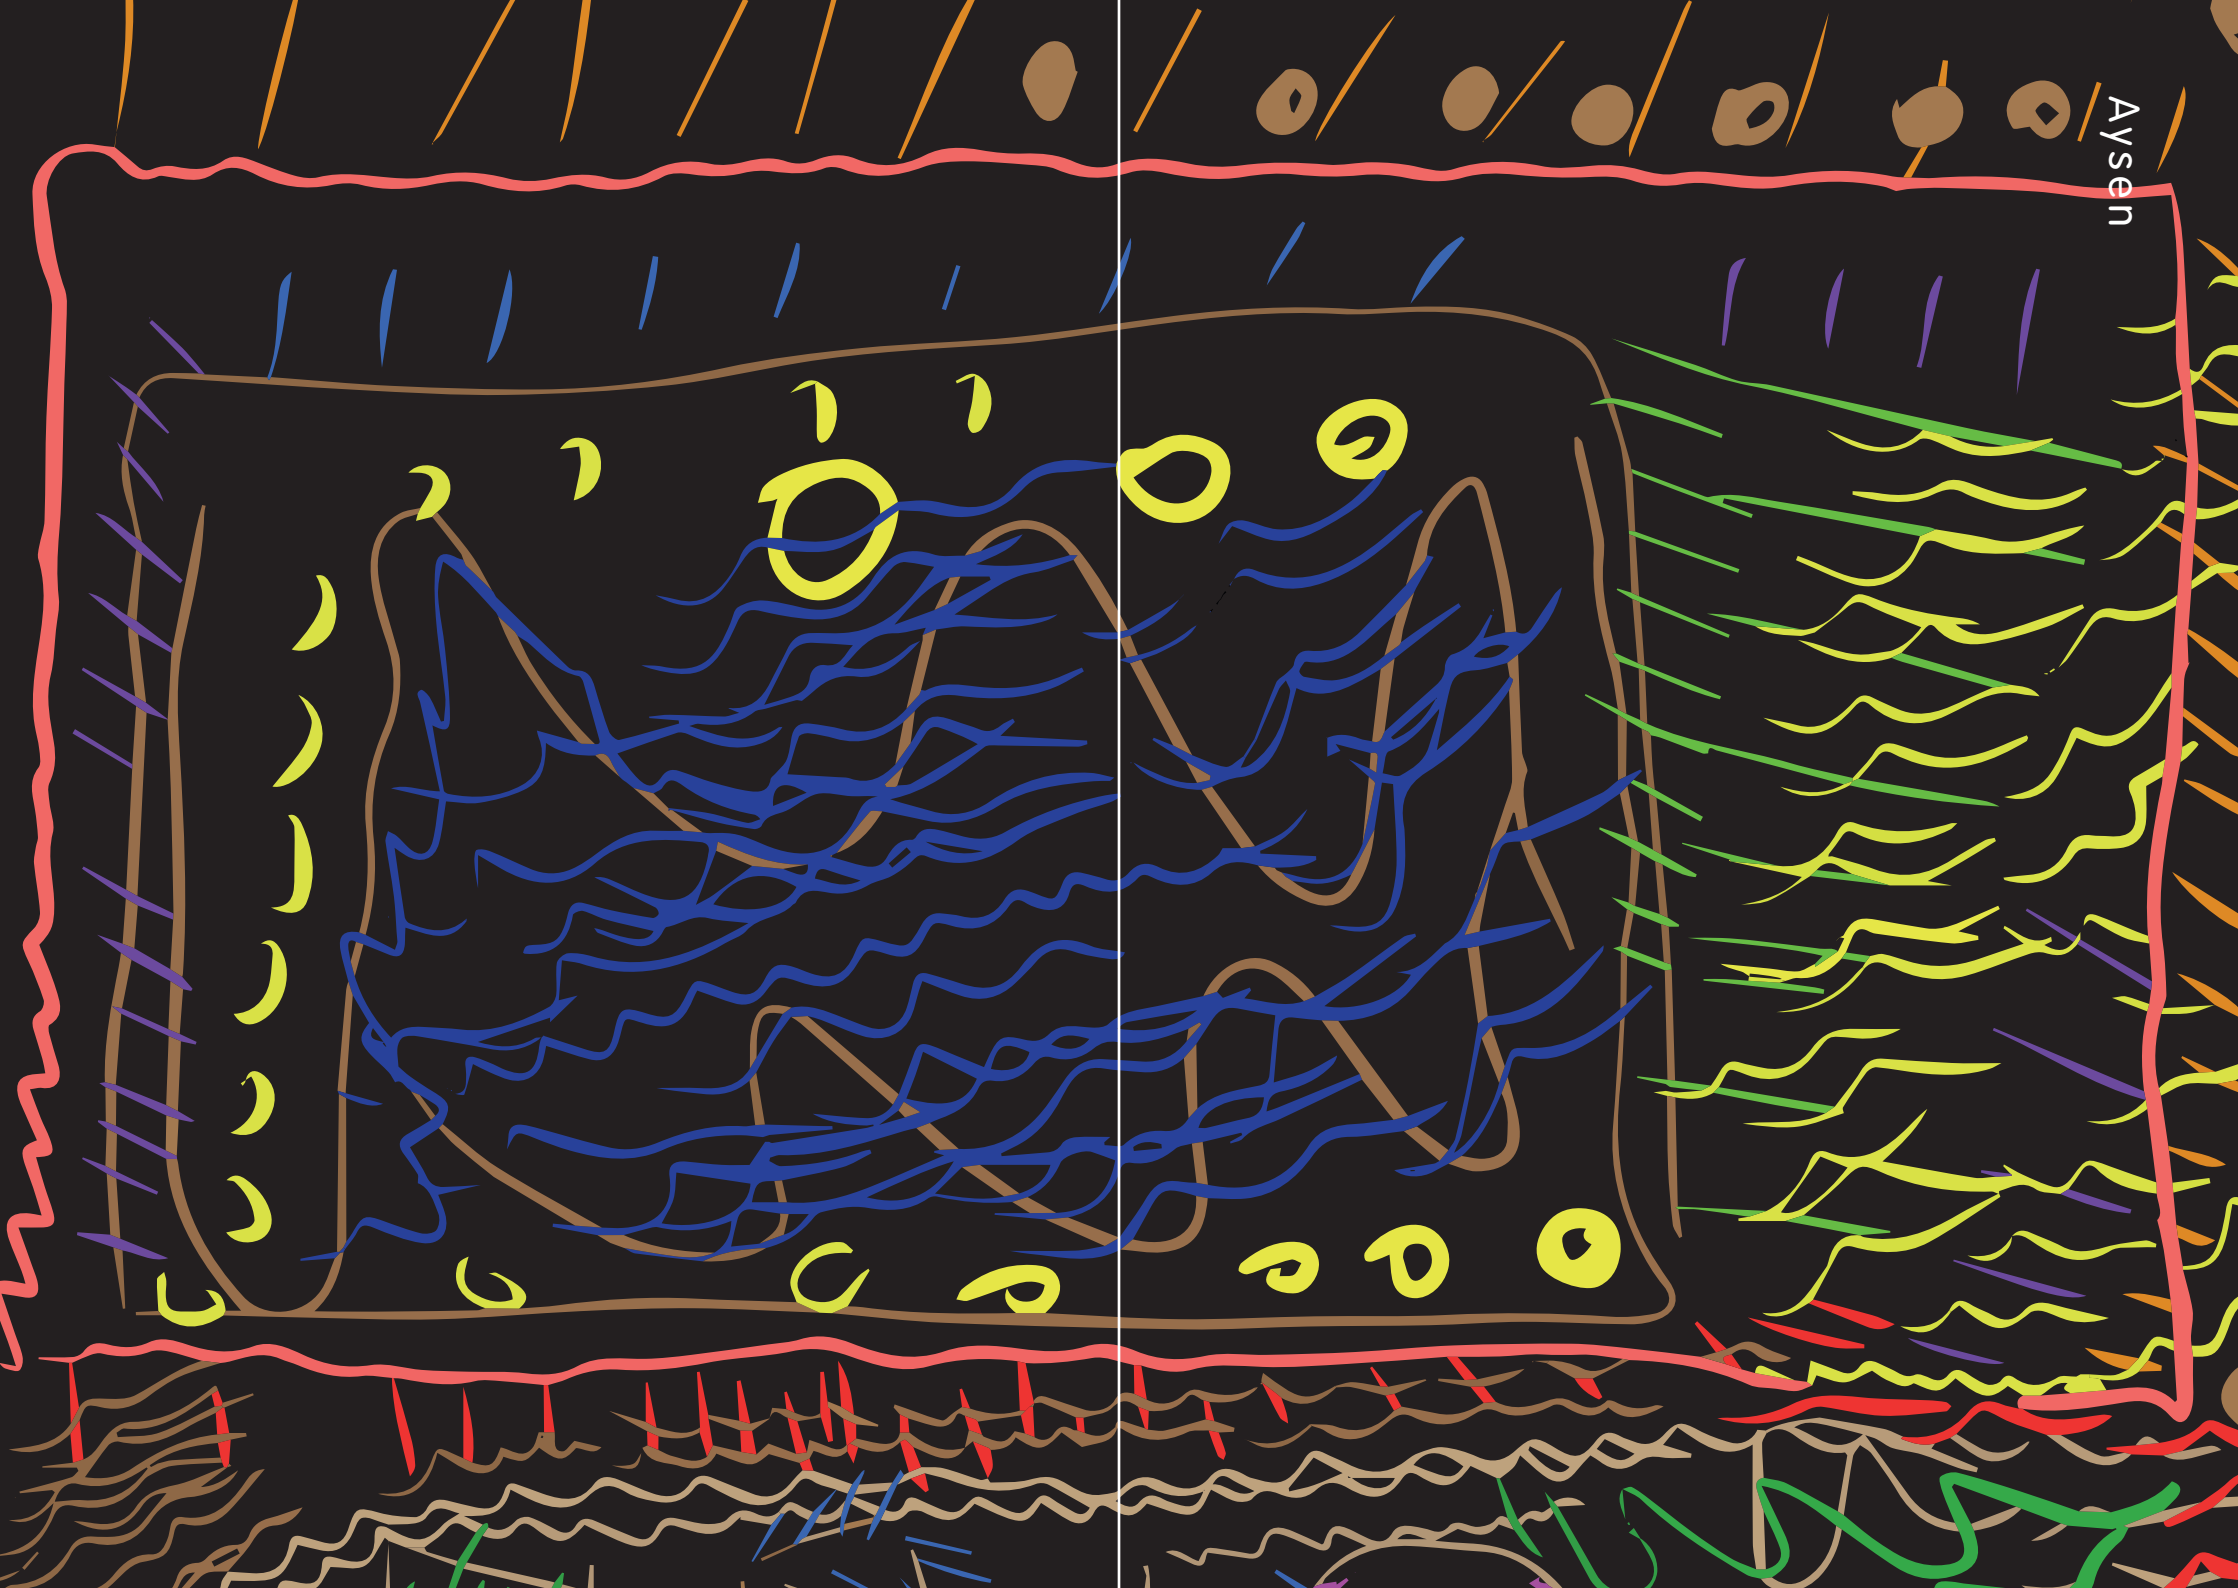

"I'm doing the art. It feels big, and we're going to be doing a big drawing, all my family is coming - it's good when everyone comes to see it"

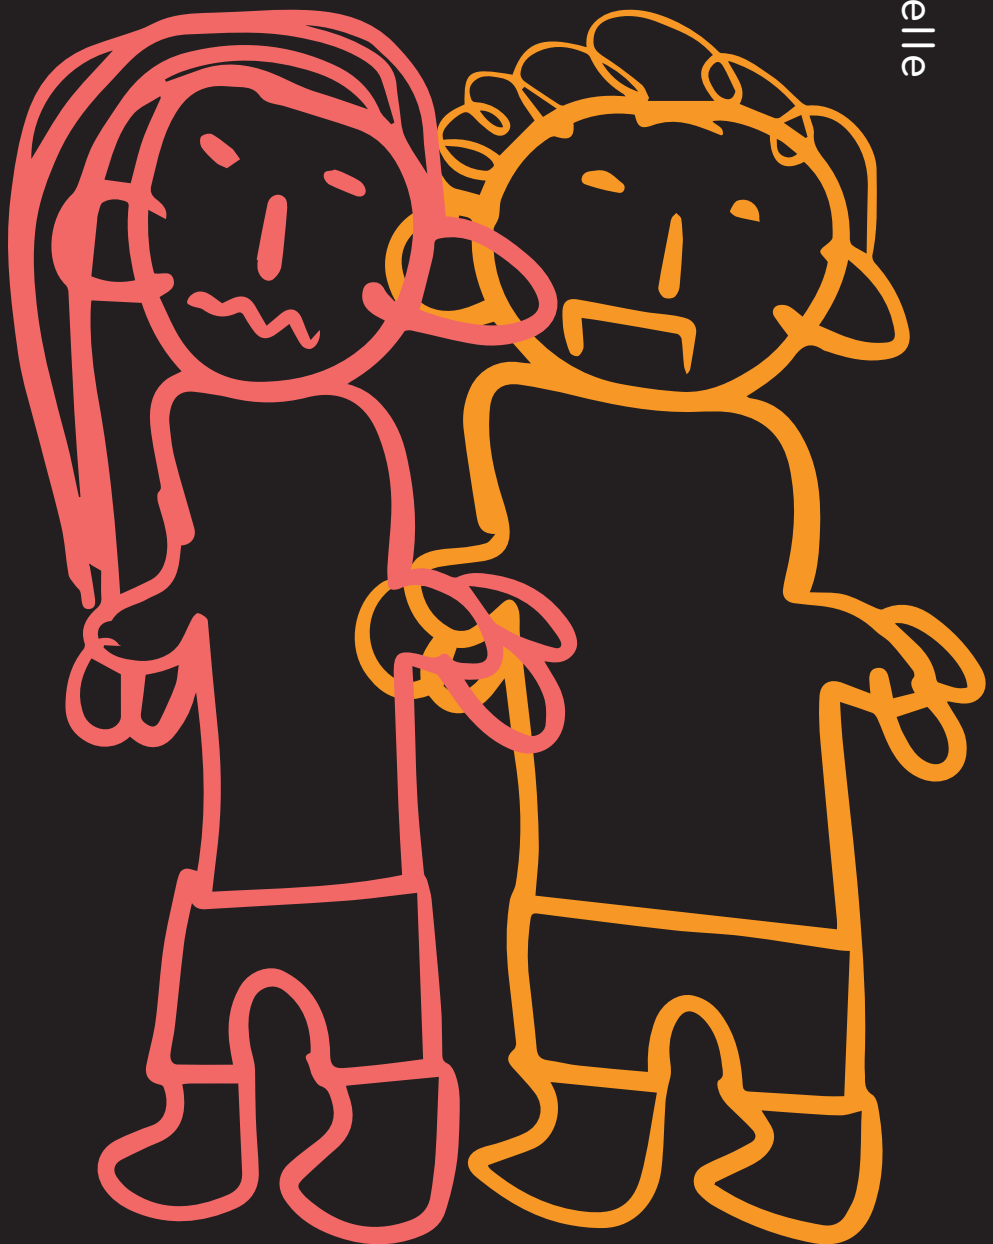

-Aysen

"We're going to be doing some live drawing on the big giant screen, which is in the main hall at St. Luke's and the LSO performers are going to be responding to the drawing that's going to be happening, and one of the performers is Aysen."
